

## Report on 4<sup>th</sup> ISE Satellite Student Regional Symposium on Electrochemistry in Ukraine, Kyiv, May 15<sup>th</sup>, 2019

On May 15th, 2019 Kyiv National University of Technology and Design (KNUTD) hosted the 4<sup>th</sup> Student Satellite Regional Symposium of the International Electrochemical Society (ISE) "Promising Materials and Processes in Applied Electrochemistry".

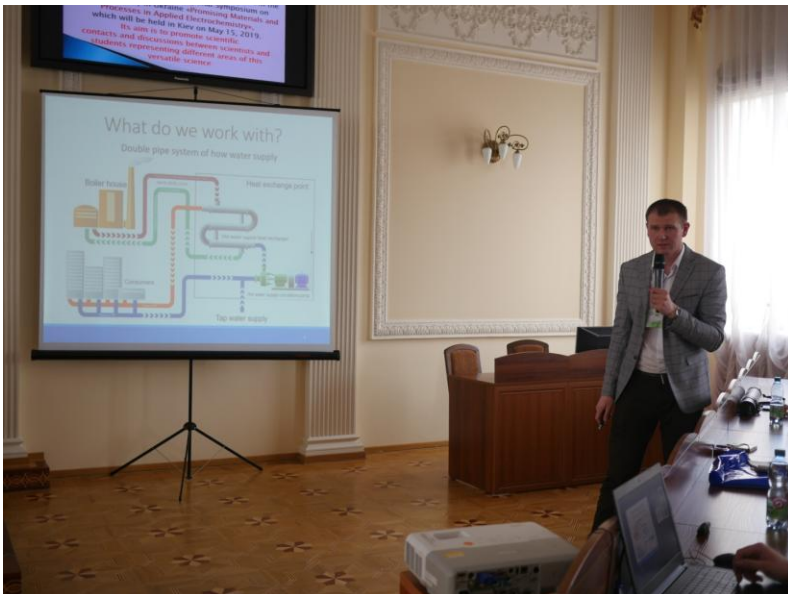

The Symposium was visited by over 70 scientists from 4 countries (Ukraine, Poland, Greece, Republic of Belarus).

The Symposium was opened, with welcoming words to young scholars by KNUTD rector, prof. Ivan Gryshchenko, Dean of the Faculty of Chemical and Biopharmaceutical Technologies Olha Baula and Head of the Department for Electrochemical Power Engineering & Chemistry, prof. Viacheslav Barsukov. Everyone noted a great role of the Symposium for the scientists of different generations, as well as high scientific level of these already regular events during the last fourth years.

The plenary lecture on nanomaterials and their application was represented by Prof. Emmanouel Koudoumas (Hellenic Mediterranean University, Heraklion, Crete Island, Greece). After that young scientists have presented their oral and poster presentations and answered the questions.

During the poster sessions students and young participants presented their findings and had

fruitful discussions with each other, as well as with world-class scientists.

The members of International Program Committee: prof. Emmanouel. Koudoumas, prof. Emmanuel Drakakis (Hellenic Mediterranean University, Heraklion, Greece), prof. Marian Jaskula (Jagellonian University, Cracow, Poland) – **see on top**; prof. Viacheslav Barsukov (KNUTD, Kyiv), prof. Olga Linyucheva (Polytechnic Institute, Kyiv) – **see below**.

Polish student team from the Jagellonian University, Cracow

The best poster presentations of young scientists were awarded by the special Diplomas of Symposium Organizing Committee.

It is planned to publish the best papers of material science profile of the 4<sup>th</sup> ISE Satellite Student Regional Symposium - 2019 in the Journal “Materials Today: Proceedings - 2020”, which is indexed in Scopus and WoS. The papers of fundamental or technological profile will be published in the Collective Monograph – 2019, which is indexed in Google Scholar and similar database.

All students, young scientists and their supervisors are very grateful ISE for the sponsor’s support of this very important event in Ukraine and hope to continue this remarkable tradition on the next years.

On behalf of Symposium Organizing Committee,

PhD student Oksana Butenko.

Prof.Dr. Viacheslav Barsukov.
